

Grassy Roads Farm and Busy Bee Nursery & Consulting Order Form

~ Updated April 21, 2020 ~

I will be doing pre-paid, contact-free, drop-offs in Bowling Green on Tuesday, April 28, and in Glasgow on Wednesday, April 29. The order form is divided into 3 parts – duck eggs / honey / book, native plants, and ordering logistics. Email me a list of what you want by 8:00 a.m. Monday, April 27, to allow me time to get all of the orders together. Orders will be filled in the order that I receive them and I will let you know if I run out of something. I hope to continue doing drop-offs every other week and will send out updated information on product availability each time. If you have any questions, you can email me at shannon@shannontrimboli.com or call me at 270-202-7677. (If you call and I don't answer, please leave a message and I'll call you back as soon as I can.) Thank you for your understanding and continued support. I hope you and your family are able to stay safe and healthy.

~ Shannon

Duck Eggs, Honey, & Book

	Notes
Duck eggs – Half dozen (\$4)	I have plenty and the eggs should be good through early June if you want to stock up. Most of the eggs are currently weighing approximately 3 oz, but I'm starting to get a few giant eggs that weigh over 3.5 oz.
Duck eggs – Dozen (\$7)	
Honey – 13 oz glass jar (\$10)	I only have 5 jars left from the 2019 harvest. The plants that will provide a significant portion of the nectar that the bees use to make their spring honey are just starting to bloom and will be blooming over the next month or so. I am currently anticipating that the 2020 harvest will occur in late June or early July.
Plants Honey Bees Use in the Ohio and Tennessee Valleys by Shannon R. Trimboli (\$32 tax included)	Let me know if you want your book signed.

Native Plants

- The link below each plant name will take you to the plant's description on my website. Information provided in the description include height, bloom time, moisture and sun requirements, what types of pollinators and wildlife use the plant, and a picture of the flower.
- Small plants are in containers that are approximately 5" tall x 3.5" wide, medium plants are in containers that are approximately 6.25" tall x 6.5" wide, and large plants are in containers that are approximately 7.5" tall x 6.5" wide.
- Overwintered plants have been outside all winter and should be able to go in the ground whenever you want to plant them. Some of the new seedlings may still need a little protection on our colder nights.

- The chart below only lists the plants that are ready to be sold now. To see a full list of all the plants I am growing this year, including ones that will be available in the near future or I'm anticipating for later this season, please visit my website at: <https://shannontriboli.com/plants/>

Native Wildflowers	Available sizes	Notes
Aster, Aromatic (<i>Symphyotrichum oblongifolium</i>) https://shannontriboli.com/busybee-aromatic-aster-description/	small (\$7)	
Aster, Calico (<i>Symphyotrichum lateriflorum</i>) https://shannontriboli.com/busybee-calico-aster-description/	medium (\$11)	Limited supply of overwintered medium containers ready to go now. Will only have a limited supply of small containers later in the season.
Aster, New England (<i>Symphyotrichum novae-angliae</i>) https://shannontriboli.com/busybee-new-england-aster-description/	small (\$7) large (\$13)	Limited supply of large containers that are overwintered plants and have multiple sprouts per container. The small containers are new seedlings.
Aster, Short's (<i>Symphyotrichum shortii</i>) https://shannontriboli.com/busybee-shorts-aster-description/	small (\$7) medium (\$11)	The medium containers are overwintered plants. The small containers are new seedlings.
Aster, Smooth (<i>Symphyotrichum laevis</i>) https://shannontriboli.com/busybee-smooth-aster-description/	small (\$7)	The large containers are overwintered plants and have multiple sprouts per container. The small containers are new seedlings.
Aster, Wavy-leaf (<i>Symphyotrichum undulatum</i>) https://shannontriboli.com/busybee-wavy-leaf-aster-description/	small (\$7)	
Cardinal flower (<i>Lobelia cardinalis</i>) https://shannontriboli.com/busybee-cardinal-flower-description/	small (\$7)	Overwintered.
Coneflower, Grey-headed (<i>Ratibida pinnata</i>) https://shannontriboli.com/busybee-grey-headed-coneflower-description/	large (\$13)	Overwintered.
Coneflower, Pale-purple (<i>Echinacea pallida</i>) https://shannontriboli.com/busybee-pale-purple-coneflower-description/	large (\$13)	Overwintered.
Coreopsis, Lance-leaved (<i>Coreopsis lanceolata</i>) https://shannontriboli.com/busybee-lance-leaved-coreopsis-description/	small (\$7)	
Culver's root (<i>Veronicastrum virginicum</i>) https://shannontriboli.com/busybee-culvers-root-description/	small (\$7)	
Cup plant (<i>Silphium perfoliatum</i>) https://shannontriboli.com/busybee-cup-plant-description/	small (\$7)	

Native Wildflowers (cont.)	Available sizes	Notes
Evening primrose, Common (<i>Oenothera biennis</i>) https://shannontriboli.com/busybee-evening-primrose-description/	small (\$7) large (\$13)	Large containers are overwintered plants so should bloom this year. (It is a biennial so let it go to seed if you want it in future years.) Small containers are seedlings.
Gaura, Large-flowered (<i>Gaura longiflora</i>) https://shannontriboli.com/busybee-large-flowered-gaura-description/	small (\$7)	
Goldenrod, Sweet / Anise-scented Goldenrod (<i>Solidago odora</i>) https://shannontriboli.com/busybee-sweet-goldenrod-description/	small (\$7)	
Hyssop, Anise (<i>Agastache foeniculum</i>) https://shannontriboli.com/busybee-anise-hyssop-description/	small (\$7)	
Indigo, Blue wild (<i>Baptisia australis</i>) https://shannontriboli.com/busybee-wild-blue-indigo-description/	medium (\$11)	Overwintered. Most have multiple sprouts per container.
Ironweed (<i>Vernonia gigantea</i>) https://shannontriboli.com/busybee-tall-ironweed-description/	small (\$7)	
Milkweed, Butterfly (<i>Asclepias tuberosa</i>) https://shannontriboli.com/busybee-butterfly-milkweed-description/	small (\$7)	
Milkweed, Rose / Swamp (<i>Asclepias incarnata</i>) https://shannontriboli.com/busybee-rose-milkweed-description/	small (\$7)	
Mountain mint, Hairy (<i>Pycnanthemum pilosum</i>) https://shannontriboli.com/busybee-hairy-mountain-mint-description/	small (\$7)	
Mountain mint, Hoary (<i>Pycnanthemum incanum</i>) https://shannontriboli.com/busybee-hoary-mountain-mint-description/	small (\$7)	
Mountain mint, Slender (<i>Pycnanthemum tenuifolium</i>) https://shannontriboli.com/busybee-slender-mountain-mint-description/	small (\$7)	Limited supply currently. More will be ready soon.
Royal catchfly (<i>Silene regia</i>) https://shannontriboli.com/busybee-royal-catchfly-description/	medium (\$11)	Overwintered.
Phlox, Summer (<i>Phlox paniculata</i>) https://shannontriboli.com/busybee-summer-phlox-description/	small (\$7)	
Sage, Blue (<i>Salvia azurea</i>) https://shannontriboli.com/busybee-azure-blue-sage-description/	small (\$7)	
Sunflower, Maximilian (<i>Helianthus maximilian</i>) https://shannontriboli.com/busybee-maximilian-sunflower-description/	large (\$13)	Overwintered. Multiple sprouts per container.

Native Wildflowers (cont.)	Available sizes	Notes
Sunflower, Rough (<i>Helianthus hirsutus</i>) https://shannontriboli.com/busybee-rough-sunflower-description/	medium (\$11)	
Susan, Black-eyed (<i>Rudbeckia hirta</i>) https://shannontriboli.com/busybee-black-eyed-susan-description/	small (\$7)	
Susan, Brown-eyed (<i>Rudbeckia triloba</i>) https://shannontriboli.com/busybee-brown-eyed-susan-description/	small (\$7) large (\$13)	Large containers are overwintered plants. Small containers are seedlings.
Wingstem, Yellow (<i>Verbesina alternifolia</i>) https://shannontriboli.com/busybee-yellow-wingstem-description/	small (\$7)	
Native Vines	Available sizes	Notes
Milkweed, Honeyvine (<i>Cynanchum laeve</i>) https://shannontriboli.com/busybee-honeyvine-milkweed-description/	small (\$7)	
Native Trees & Bushes	Available sizes	Notes
Buttonbush (<i>Cephalanthus occidentalis</i>) https://shannontriboli.com/busybee-buttonbush-description/	small (\$7)	The small containers are this year's seedlings and are approximately 4-5 inches tall. In a couple of weeks or so, I'll have overwintered trees from last year in 3-gal tree containers, but the new leaves got nipped by the freeze and I want to see how they come back before offering them again.
Ninebark (<i>Physocarpus opulifolius</i>) https://shannontriboli.com/busybee-ninebark-description/	small (\$7)	These are this year's seedlings and are only a couple of inches tall right now.
Shrubby St. John's wort (<i>Hypericum prolificum</i>) https://shannontriboli.com/busybee-shrubby-st-johns-wort-description/	small (\$7) 3-gal tree (\$20)	3-gal tree containers are overwintered trees from last year. The small containers are this year's seedlings and are only about 4 inches tall.
Spicebush (<i>Lindera benzoin</i>) https://shannontriboli.com/busybee-spicebush-description/	small (\$7)	They can go out now, but because they are only approximately 4-6 inches tall, I suggest giving them some sort of protection from deer, rabbits, lawn mowers, and weed-eaters.

Ordering Logistics

Drop-off locations:

- Bowling Green – Tuesday, April 28 – Parking lot of the WKU Small Business Development Center (the “old mall”) – 10:00 a.m.
- Glasgow – Wednesday, April 29 – Parking lot of Eastern Elementary School – 10:00 a.m.

Payment information:

- E-mail is not a secure method for sending sensitive information such as credit card details. Therefore, please give me your phone number and a date and time to call you when you send me the list of items you want.
- When I call, I will need you to give me the following information:
 - Complete card number,
 - Expiration date,
 - Security code/CVV,
 - Billing ZIP code.
- I will enter the information directly into my card processing app so that your data will remain as secure as possible.

**Email the list of items you want (including sizes on the plants) and your contact info to:
shannon@shannontrimboli.com**
