

Grassy Roads Farm and Busy Bee Nursery & Consulting Order Form

~ Updated May 12, 2020 ~

I will be doing pre-paid, contact-free, drop-offs in Bowling Green on Tuesday, May 19, and in Glasgow on Wednesday, May 20. The order form is divided into 3 parts – duck eggs / honey / book, native plants, and ordering logistics. Please, email me a list of what you want by 8:00 a.m. Monday, May 18, to allow me time to get all of the orders together. Orders will be filled in the order that I receive them and I will let you know if I run out of something. I hope to continue doing drop-offs every other week and will send out updated information on product availability each time. If you have any questions, you can email me at shannon@shannontrimboli.com or call me at 270-202-7677. (If you call and I don't answer, please leave a message and I'll call you back as soon as I can.) Thank you for your understanding and continued support. I hope you and your family are able to stay safe and healthy.

~ Shannon

Duck Eggs, Honey, & Book

	Notes
Duck eggs – Half dozen (\$4)	I have plenty if you want to stock up. Most of the eggs are currently weighing approximately 3 oz, but I'm starting to get a few giant eggs that weigh over 3.5 oz.
Duck eggs – Dozen (\$7)	
Honey – 13 oz glass jar (\$10)	I only have 3 jars left from the 2019 harvest. The plants that will provide a significant portion of the nectar that the bees use to make their spring honey started blooming a few weeks ago and will continue to bloom over the next month or so. I am currently anticipating that the 2020 harvest will occur in late June or early July.
Plants Honey Bees Use in the Ohio and Tennessee Valleys by Shannon R. Trimboli (\$32 tax included)	Let me know if you want your book signed.

Native Plants

- The link below each plant name will take you to the plant's description on my website. Information provided in the description include height, bloom time, moisture and sun requirements, what types of pollinators and wildlife use the plant, and a picture of the flower.
- Overwintered plants have been outside all winter and should be able to go in the ground whenever you want to plant them. Some of the new seedlings may still need a little protection on our colder nights.
- The chart below only lists the plants that are ready to be sold now. To see a full list of all the plants I am growing this year, including ones that will be available in the near future or I'm anticipating for later this season, please visit my website at: <https://shannontrimboli.com/plants/>

- Small containers are approximately 5” tall x 3.5” wide, medium containers are approximately 6.25” tall x 6.5” wide, and large containers are approximately 7.5” tall x 6.5” wide.

Native Wildflowers	Available container sizes	Notes
Aster, Aromatic (<i>Symphyotrichum oblongifolium</i>) https://shannontriboli.com/busybee-aromatic-aster-description/	small (\$7)	
Aster, Calico (<i>Symphyotrichum lateriflorum</i>) https://shannontriboli.com/busybee-calico-aster-description/	medium (\$11)	Limited supply of overwintered medium containers ready to go now. Will only have a limited supply of small containers later in the season.
Aster, New England (<i>Symphyotrichum novae-angliae</i>) https://shannontriboli.com/busybee-new-england-aster-description/	small (\$7) large (\$13)	Limited supply of large containers that are overwintered plants and have multiple sprouts per container. The small containers are new seedlings.
Aster, Short's (<i>Symphyotrichum shortii</i>) https://shannontriboli.com/busybee-shorts-aster-description/	small (\$7) medium (\$11)	The medium containers are overwintered plants. The small containers are new seedlings.
Aster, Smooth (<i>Symphyotrichum laevis</i>) https://shannontriboli.com/busybee-smooth-aster-description/	small (\$7) large (\$13)	The large containers are overwintered plants and have multiple sprouts per container. The small containers are new seedlings.
Aster, Wavy-leaf (<i>Symphyotrichum undulatum</i>) https://shannontriboli.com/busybee-wavy-leaf-aster-description/	small (\$7)	
Bee balm / Bergamont (<i>Monarda fistulosa</i>) https://shannontriboli.com/busybee-bee-balm-description/	medium (\$11) large (\$13)	Overwintered. All of the large containers and most of the medium containers have multiple sprouts per container.
Blazing star (<i>Liatris squarrosa</i>) https://shannontriboli.com/busybee-blazing-star-description/	small (\$7) medium (\$11)	Overwintered.
Cardinal flower (<i>Lobelia cardinalis</i>) https://shannontriboli.com/busybee-cardinal-flower-description/	small (\$7)	Overwintered.
Coneflower, Grey-headed (<i>Ratibida pinnata</i>) https://shannontriboli.com/busybee-grey-headed-coneflower-description/	large (\$13)	Overwintered.
Coneflower, Pale-purple (<i>Echinacea pallida</i>) https://shannontriboli.com/busybee-pale-purple-coneflower-description/	large (\$13)	Overwintered.
Coneflower, Purple (<i>Echinacea purpurea</i>) https://shannontriboli.com/busybee-purple-coneflower-description/	medium (\$11) large (\$13)	Overwintered. Very limited supply of the large containers, but a good number of the medium containers.

Native Wildflowers (cont.)	Available container sizes	Notes
Coreopsis, Lance-leaved (<i>Coreopsis lanceolata</i>) https://shannontriboli.com/busybee-lance-leaved-coreopsis-description/	small (\$7)	
Culver's root (<i>Veronicastrum virginicum</i>) https://shannontriboli.com/busybee-culvers-root-description/	small (\$7)	
Cup plant (<i>Silphium perfoliatum</i>) https://shannontriboli.com/busybee-cup-plant-description/	small (\$7)	
Evening primrose, Common (<i>Oenothera biennis</i>) https://shannontriboli.com/busybee-evening-primrose-description/	small (\$7) large (\$13)	Large containers are overwintered plants so should bloom this year. (It is a biennial so let it go to seed if you want it in future years.) Small containers are seedlings and will bloom next year.
Gaura, Large-flowered (<i>Gaura longiflora</i>) https://shannontriboli.com/busybee-large-flowered-gaura-description/	small (\$7)	Biennial so won't bloom until next year. Let go to seed next year if you want to continue to have it in future years.
Goldenrod, Sweet / Anise-scented (<i>Solidago odora</i>) https://shannontriboli.com/busybee-sweet-goldenrod-description/	small (\$7)

Indigo, White wild (<i>Baptisia alba</i>) https://shannontriboli.com/busybee-wild-white-indigo-description/	medium (\$11)	Overwintered. Some have multiple sprouts per container. Limited supply.
Ironweed (<i>Vernonia gigantea</i>) https://shannontriboli.com/busybee-tall-ironweed-description/	small (\$7)	
Milkweed, Butterfly (<i>Asclepias tuberosa</i>) https://shannontriboli.com/busybee-butterfly-milkweed-description/	medium (\$11)	Overwintered. Limited supply. Should have new seedlings later in the season.
Milkweed, Common (<i>Asclepias syriaca</i>) https://shannontriboli.com/busybee-common-milkweed-description/	small (\$7)	
Milkweed, Rose / Swamp (<i>Asclepias incarnata</i>) https://shannontriboli.com/busybee-rose-milkweed-description/	small (\$7)	
Mountain mint, Hairy (<i>Pycnanthemum pilosum</i>) https://shannontriboli.com/busybee-hairy-mountain-mint-description/	small (\$7)	
Mountain mint, Hoary (<i>Pycnanthemum incanum</i>) https://shannontriboli.com/busybee-hoary-mountain-mint-description/	small (\$7)	
Mountain mint, Slender (<i>Pycnanthemum tenuifolium</i>) https://shannontriboli.com/busybee-slender-mountain-mint-description/	small (\$7)	Limited supply currently. More will be ready soon.

	Available container sizes	Notes
Native Wildflowers (cont.)		
Phlox, Summer (<i>Phlox paniculata</i>) https://shannontriboli.com/busybee-summer-phlox-description/	small (\$7)	
Prairie clover, Purple (<i>Dalea purpurea</i>) https://shannontriboli.com/busybee-purple-prairie-clover-description/	small (\$7)	
Prairie clover, White (<i>Dalea candida</i>) https://shannontriboli.com/busybee-white-prairie-clover-description/	small (\$7)	
Rattlesnake master (<i>Eryngium yuccifolium</i>) https://shannontriboli.com/busybee-rattlesnake-master-description/	small (\$7)	
Royal catchfly (<i>Silene regia</i>) https://shannontriboli.com/busybee-royal-catchfly-description/	medium (\$11)	Overwintered.
Sage, Blue (<i>Salvia azurea</i>) https://shannontriboli.com/busybee-azure-blue-sage-description/	small (\$7)	
Sneezeweed, Purple-headed (<i>Helenium flexuosum</i>) https://shannontriboli.com/busybee-purple-headed-sneezeweed-description/	small (\$7)	
Sunflower, Maximilian (<i>Helianthus maximiliani</i>) https://shannontriboli.com/busybee-maximilian-sunflower-description/	large (\$13)	Overwintered. Multiple sprouts per container.
Sunflower, Rough (<i>Helianthus hirsutus</i>) https://shannontriboli.com/busybee-rough-sunflower-description/	medium (\$11)	Overwintered.
Sunflower, Rough (<i>Helianthus hirsutus</i>) https://shannontriboli.com/busybee-rough-sunflower-description/	medium (\$11)	
Susan, Black-eyed (<i>Rudbeckia hirta</i>) https://shannontriboli.com/busybee-black-eyed-susan-description/	small (\$7)	
Susan, Brown-eyed (<i>Rudbeckia triloba</i>) https://shannontriboli.com/busybee-brown-eyed-susan-description/	small (\$7) large (\$13)	Large containers are overwintered plants. Small containers are seedlings.
Wingstem, White (<i>Verbesina virginica</i>) https://shannontriboli.com/busybee-white-wingstem-description/	small (\$7)	
Wingstem, Yellow (<i>Verbesina alternifolia</i>) https://shannontriboli.com/busybee-yellow-wingstem-description/	small (\$7)	
Native Vines	Available container sizes	Notes
Milkweed, Honeyvine (<i>Cynanchum laeve</i>) https://shannontriboli.com/busybee-honeyvine-milkweed-description/	small (\$7)	

Native Trees & Bushes	Available container sizes	Notes
Buttonbush (<i>Cephalanthus occidentalis</i>) https://shannontrimboli.com/busybee-buttonbush-description/	small (\$7) 3-gal tree (\$20)	The small containers are this year's seedlings and are approximately 4-5 inches tall. The 3-gal tree containers are overwintered trees from last year.
New Jersey Tea (<i>Ceanothus americanus</i>) https://shannontrimboli.com/busybee-new-jersey-tea-description/	small (\$7)	
Ninebark (<i>Physocarpus opulifolius</i>) https://shannontrimboli.com/busybee-ninebark-description/	small (\$7)	These are this year's seedlings and are approximately 4-6 inches tall right now.
Shrubby St. John's wort (<i>Hypericum prolificum</i>) https://shannontrimboli.com/busybee-shrubby-st-johns-wort-description/	small (\$7) 3-gal tree (\$20)	3-gal tree containers are overwintered trees from last year. The small containers are this year's seedlings and are only about 4 inches tall.
Spicebush (<i>Lindera benzoin</i>) https://shannontrimboli.com/busybee-spicebush-description/	small (\$7)	They can go out now, but because they are only approximately 4-6 inches tall, I suggest giving them some sort of protection from deer, rabbits, lawn mowers, and weed-eaters.

Ordering Logistics

Drop-off locations:

- Bowling Green – Tuesday, May 19 – Parking lot of the WKU Small Business Development Center (the “old mall”) – 10:00 a.m.
- Glasgow – Wednesday, May 20 – Parking lot of Eastern Elementary School – 10:00 a.m.

Payment information:

- E-mail is not a secure method for sending sensitive information such as credit card details. Therefore, please give me your phone number and a date and time to call you when you send me the list of items you want.
- When I call, I will need you to give me the following information:
 - Complete card number,
 - Expiration date,
 - Security code/CVV,
 - Billing ZIP code.
- I will enter the information directly into my card processing app so that your data will remain as secure as possible.

**Email the list of items you want (including sizes on the plants) and your contact info to:
shannon@shannontrimboli.com**
